

I am a very happy subscriber of XM Satellite Radio and its traffic and weather channels. Satellite radio provides me with variety and quality that are not available elsewhere. I have a daily 2-hour commute to work, and I depend heavily on XM Satellite Radio for news and entertainment -- especially the ability to get weather and traffic updates in an instant and where I don't have to wait for endless music and commercials.

I pay for these services, and it should not be p to the National Association of Broadcasters to dictate what I am permitted to hear. In fact, this is the primary reason I subscribe to XM Satellite Radio.

I respectfully urge you to reject the NAB'S PETITION 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

Respectfully,
Diane Bruner
